OUTPUT:

React project has been successfully compiled and is now running.it can be view in our browser by:

Local: http://localhost:3000

On Your Network: http://192.168.97.172:3000
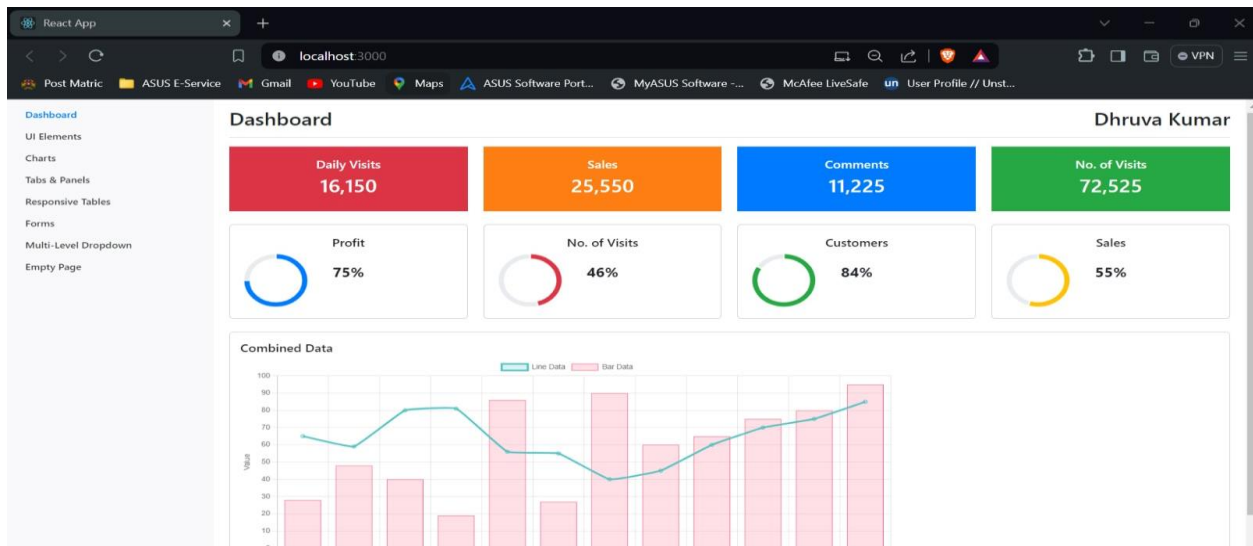

This project is an Admin Dashboard built using React. Upon running the application, we will see a web-based interface designed for managing and monitoring various aspects of a system. The dashboard includes:

- A Sidebar for easy navigation.
- Dashboard Cards that display key metrics such as sales, revenue, user activity, and more.
- Charts to visualize data trends and statistics.
- Responsive design to ensure it works well on different screen sizes.
